

# **Reservoir & Lake Management**

**Cayelan Carey, Lisa Borre, Mengyuan Zhu, Huiyun Li, Dave Johnson, Gerardo Perillo, Bomchul Kim, Jonathan Doubek, Margaret Dix, Veronica Gil, Deniel Conde, Nelson Mello, Meilan Jiang, Lu Zhang, Delik Akyuz, Ana Laura Ruibal-Conti, Guangwei Zhu**

**17 persons**

**8 countries**

# Open Discussion

## Reservoir as an unique ecosystem

**In social aspect, how do human activities influence reservoir dynamics?**

- cultural change
- tourism
- social activity
- landuse + development on water quality
- Migration population problem
- flooding pattern change

**Temperate vs tropical reservoirs?**

**Natural lakes versus reservoirs?**

**Does reservoir usage affects its physics, chemistry and biology?**

- hydropower;
- drinking water supply;
- agricultural water supply;
- combination of these.

# Open Discussion

## HF buoy and Model in Reservoirs

**What aspects of reservoir dynamics can we better understand by using buoys?**

- stratification;
- TSI;
- residence times
- metabolism.

**Which reservoirs has HF data?**

- Kentucky, Korea, Qiandao, Dashahe, NY DEP reservoirs, Ford Lake, FCR ... ..

**Where to set a buoy system in a reservoir to meet the model and management need?**

- Inflow, for calibration model in Korea
- Dam, for ecological process monitoring

**What kind of models we use to analyze a reservoir?**

- 2D CEQUAL – W2 model from USA, simulate turbidity current, TP, TN etc.
- 3D ELCOM-CAEDYM for temperature, DO, TN, NO<sub>3</sub>, NH<sub>4</sub>

# Open Discussion

## GLEON meet management demand

**How our high frequency data meet the public and management demand?**

- DO, Turb, Chla, flow rate in Korea
- DO as an indicator of reservoir restoration in Brazil

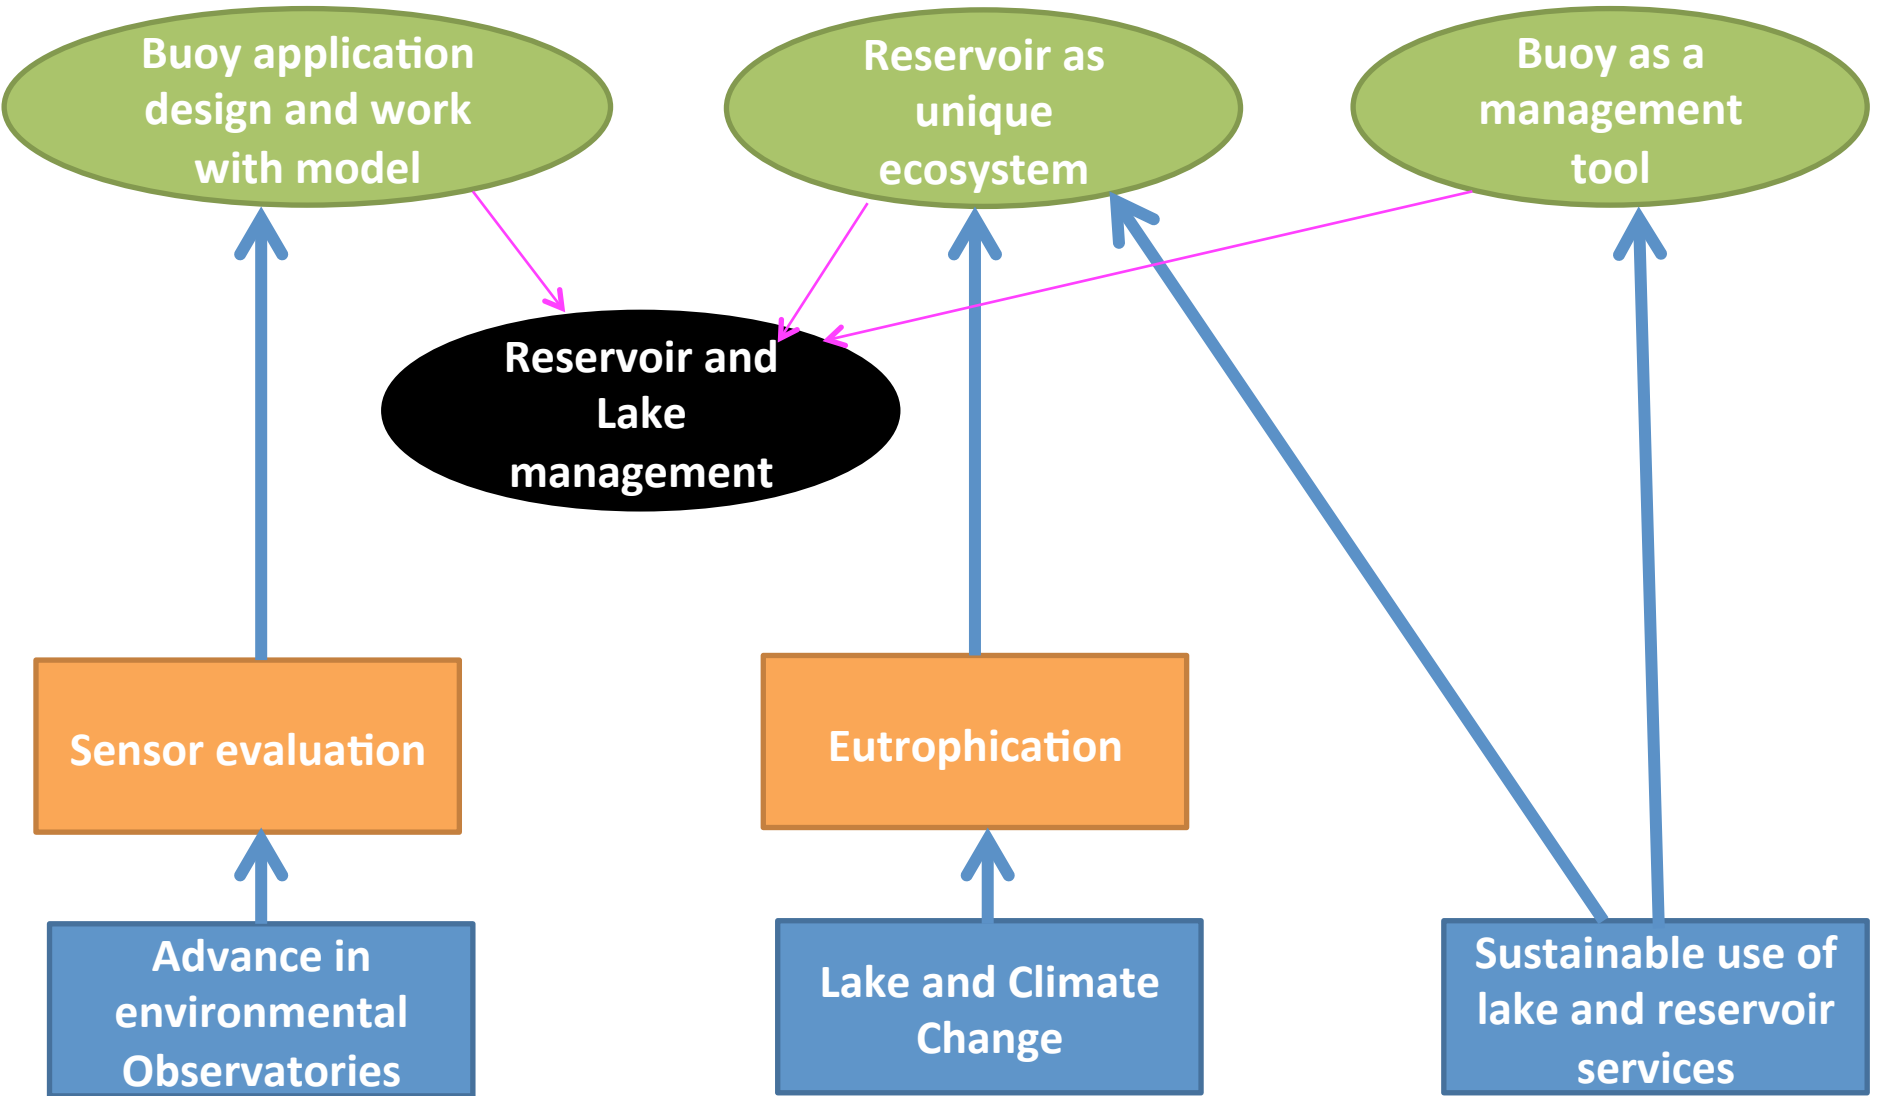

**What kind of ecological, environmental and social problems we meet in reservoir management.**

- Turbidity
- Bloom
- Fishery
- migration fish protection
- biodiversity

**Management strategies to control or improve reservoir water quality.**

- oxygen systems
- selective water withdraw from Dam

# Relation to Purple Wall

# Products and timeline

## Collect basic reservoir information inside of WG and GLEON.

- Response person: Guangwei
- geography, hydrology - environmental issues - drivers of ecological change
- Deadline: 30NOV13 – release survey form  
31DEC13 – end of data input and share to result to WG participants

## Paper 1: Link HF buoy monitoring to lake management.

- Response person: Lisa
- Case: - NY reservoir; - Taihu; - Sunapee; - Rotorua; - Ford Lake ... ..
- Deadline: 15 Dec – Outline; 15Dec - Case study sites, 31JAN14 – Draft

## Paper 2: Apply HF buoy for bloom forecasting in reservoir.

- Response person: Guangwei
- Case: - Xinanjiang reservoir and other interesting cases
- Deadline: 15 Dec – Outline; 15Dec - Case study sites, 31JAN14 – Draft

## Paper 3: Management strategy overview to control water quality in Reservoir.

- Response person: Jonathan
- Deadline: 31JAN14 – Outline; Summer 2014 - Draft
