31-03-2021, 07:00 UTC: Timeseries analysis for ecologists
Ulrike Obertegger
An introduction to the challenges of timeseries data and demonstration of different analysis methods. This is not a technical course but a practical demonstration of what can be done to solve certain ecological questions.

23-04-2021, 16:00 UTC: Climate drivers, morphometry factors, and thermal responses of a moderate deep tropical lake
Gilberto Fonseca Barroso
This lecture will address Lake Terra Alta, a deep Brazilian tropical lake, thermal responses based on high-frequency meteorological and thermal measurements with a low-cost buoy.
